It was voted to hold the next Chief Archie F. Bullock, Sgts. meeting of the Chamber at the Fred Lucarelli and William Olson Arlington Academy of Music on the evening of Feb. 4.

Chief Bullock

(Continued from Page One)

lice department for 28 years. Actually, he first became associated with police work as a special officer back in 1916. At that time, he recalls, he did traffic duty at the old the Heights Reservoir, just above the Heights carbarn. The park was thronged in those days, especially ingto on Sunday afternoons, with street-car after street-car filled with plasure seekers coming down from Lexington, Pick-pockets took advantage of the situation and "worked" the crowds. On one Sunof the situation and day afternoon, the Chief arrested less than four pick-pockets at the resort.

When World War I broke out, Chief Bullock went into the service as a member of the United States Army. He returned to work as an Arlington patrolman the day after his discharge.

In January, 1931, Chief Bullock, then one of two sergeants in the police department, was promoted to Chief of the department. Selectmen at the time of his appointment were Arthur P. Wyman, Hollis M. Gott and William O. Hauser.

Since becoming chief, Bullock has introduced many innovations in the Arlington department which has grown with the ever increasing population. He was a pioneer in the use of radio to combat crime. modern filing methods, etc., which im-provements have been copied by other police departments.

As an authority on juvenlie de-linquency problems, Chief Bullock has been invited to address law enforcement bodies, PTA groups and other organizations on many occasions. He has served as an officer in Police Chiefs' Associations and has taken a prominent part in the conventions and conferences held by these groups.

Chief and Mrs. Bullock live a

20 Pine Ridge road. They have four children, three of whom live at home, while the youngest, Ed-ward, is a student at St. John's Preparatory School.

Five Driven Out in 2-Alarm Fire at The Heights

A two-alarm fire in the two-family dwelling at 79 Crescent Hill ave., Arlington Heights, drove out five persons and caused heavy damage last Friday night. The blaze, which started in the

attic ,was discovered shortly after 9 o'clock and an alarm was sounded from Box 774 at Crescent Hill ave., and the Lexington line. Less than 10 minutes after the original alarm, a second alarm was ordered as the blaze spread quickly and broke through the roof.

Driven out into the cold were Elbert F. Powell, a Coast Guard

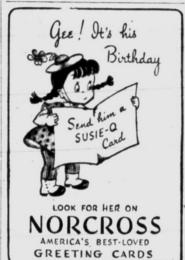

veteran, and his wife, Stacia, who occupy the first floor; his father and mother, Mr. and Mrs. Edwin B. Powell, who live on the second floor, and Mrs. Powell's sister, Mrs. Frank Proctor.

and several patrolmen, were on duty while firemen fought the fire. Recall was not sounded until after

James J. Donovan and Thomas R.
Pigott.

Officers Net Affacted

Officers Not Affected Patrolmen have been assigned to traffic duty on Massachusetts ave., from 5 to 7 p.m., daily, at Lake st., Medford st., Mystic st., Pleasant st., Brattle st., and Park ave. Two patrolmen will ride in each prowl car at night, as at the present.

There are no changes among the officers in the department. Lt. Daniel P. Barry will continue to have charge of the day platoon and Sgt. Harold F. Pick will remain op street duty days. Sgt. William Riley will continue to serve as

armorer and on street duty.

Lt. Albert E. Ryan will continue as traffic maintenance and enforcement supervisor while Lt. James J. Flynn will remain in command of the inspectors' division in which no changes in personnel have been

The shifts are in line with an established policy of re-assigning the patrolmen so that they may, familiarize themselves with various routes in the town, Chief Bullock told the NEWS.

G.I. Students Among **Artists** in Recital

The Arlington Academy of Music held another successful recital in the concert room on Monday.

Those taking part were: Martha Dickey, Frances Wood, piano; Richard Van Iderstine, trumpet; Ruth Flynn, Alice Saxton, piano; Gordon Jones, saxophone; Betty Ann Kelleher, piano; Jeanette Burg, vocal; Agnes Kirchisi piano; William Keanely, accordion; Phyllis Aroian, piano; Phyllis Rodwell, vocal; William Lowenhaupt, clarinet; Virginia Hutchinson, piano; John King, Joseph Canty, Loseph Paulika, piano; John King, Joseph Canty, Loseph Canty, L Joseph Rourke, swing trio, the trio plus Theresa Duquette, swing quartet; Joseph Borghetti, trombone.

Dean Frank Ward introduced

the soloists, trio and quartet from among the veteran student body who were making their debuts as musical performers. This gave the audience an idea of the splendid work being done by the Veterans Administration for returned serv-

Director Wood spoke to the audience about the commencement of mid-year classes starting Feb. 3, and the spirit, cooperation and enthusiasm of the G. I. students.

Miss Wallace Engaged

Mrs. Frederick Wallace of Arlington announces the engagement of her daughter, Miss' Ruth Elizabeth Wallace, to Norman Henry of Arlington, son of Herman W. Henry of Columbus, Ohio, and the late Mrs. Henry.

Miss Wallace attended the Mary Brooks Junior College and is graduate of the Perry Normal School in Boston.

Mr. Henry is a graduate of Ohio State University and returned re-cently from 38 months in the European theatre with the Army Engi-

TIMELY ADVICE

With the number of accidental deaths due to fire mounting steadily every day, the Boston Metropolitan Chapter of the American Red Cross has issued a warning to all who may one day be trapped in fire.

According to a Red Cross accident prevention director, close to 10,000 persons were killed in fires last year. During the current winter onths, we have already read of several fires in communities surrounding Arlington in which lives were lost. Therefore, such tragedies could possibly occur here at home and are not by any means confined to rural districts

Advance thought and training can save lives in case of fire, the American Red Cross suggests.

save yourself from fire. The best air is usually just above the floor. You may have to crawl along the floor. It is best to cover the nose and mouth with wet cloth or handkerchief, because this keep out some of the irritating fumes and lessens the danger of inhaling flame.

Remember also that a handkerchief is not a gas mask. Many people have died believing that it is. The danger of carbon monoxide gas soning is present at every fire.

A person whose clothes are on fire must not run or remain standing. Running fans the flames; standing makes him likely to inhale the fumes and flames. If your own clothing catches on fire, roll up in a blanket or rug, with your head uncovered, and thus smother the flames. If there is no such material at hand, lie down, roll over slightly and slowly, and use your hands to help beat out the flames.

If you are caught on the upper floor of a burning building, make a rope from sheets or blankets, tie one end securely, and slide to safety. Jump from a window only as a last resort.

If you wake up and smell smoke at home, don't jerk open the bedroom door. First, put the palm of your hand on the door panel above your head. If the wood is hot, don't open the door; it is too late. The hot wood, (or even a hot doorknob) means that the hall beyond is charged with lethal heat, and you can't possibly make the stairs.

Instead, leave the door closed. Escape by a window if possible; or at least yell for help from a window. With a closed door between you and the fire, you have every chance of surviving until rescue comes.

If the door isn't hot, open it cautiously. Brace your hip and foot against it to be prepared in case you have to shut it quickly. Put the alm of your hand across the crack above your head. Then open the por an inch or so. If there is any pressure against the door - or if you feel an onrush of heat against your hand - slam it shut and take to the

Next to the knack of opening doors properly in a burning building the business of closing doors. Time and again, the person who disovers a fire rushes off in a frenzy of excitement, leaving the door wide pen. Naturally the accumulating heat and fumes are free to sweep upward through the rest of the house unimpeded. If that door were instantly slammed shut the fire and its advance guard of heat and gases would be bottled up for quite a few minutes.

would be alive today if they had but known and practiced these simple techniques and rules of safety.

Passengers Shaken As Autos Collide **Near Snow Dump**

A passenger in an automobile was badly shaken up Sunday afternoon when two cars crashed on Summer st., near Edgehill road.

The victim was Doris B. Alcorn, 26, of 671 Main st., Malden. According to the police, the auto op-erated by Malcolm C. Ahern of 429 Pleasant st., Belmont was going easterly on Summer st., when the driver stopped as a bulldozer, working on the Town's snow dump. headed toward the Belmont car. Ahern's auto was then struck by a car operated by James W. Par-

ker of 8 Rector road, Mattapan.

Benefit to Provide **Books for Children**

ization Our World United Through Books, Inc., Treasure Chest cam-paign, which encourages groups of chests of 30 books each to send to bloom once to give St. James the bloom once to give St. James the win. The two top scorers for St. 8 Asia whose books were destroyed with 14 points and Ockerbloom a right ford with 11 points.

These chests are collections of American children's books in English, chosen and bought by the Joseph's of Belmont at Belmont. children of America, under the guidance of competent adults and packed in a wooden box, gaily decorated by the children themselves.

A scrap book is put in with the books through which the donors Welch 0 introduce themselves to the re-0 cipients, their unknown friends beyond the seas. An empty scrap book is added to be filled and sent back to the group in America

BACK AGAIN

Now that the winter is here and having our equipment in top shape, we are in a position to offer you three things that we were always noted for:

Service — Quality — Economy

My brother and I realize that you had a pretty hard time getting oil and coal, plus service, during the war years, however, you must also take into consideration that our four years of overseas duty with the Infantry. wasn't exactly a pleasant experience.

We want nothing from the government. All we ask is that you as an individual give us a chance to get started on our feet again.

Just call or write-

Lt. Fagerland, and Com. Lane

awanded two Arlington men for Nimitz' staff as assistant operations Navy during World War II, it was announced this week. The citations were made by Secretary of the Navy James Forrestal, for the President.

Com. Arthur S. Lane. USNR, con of Mrs. Catherine F. Lane of Win-

Cdr. Lane, who has been released to inactive duty, earned the award as Commanding Officer of the USS YMS 28, during the advance landings on the Anzio-Nettuni area, Italy, in January, 1944.

Text of the citation follows: "For meritorious achievement as Commanding Officer of the USS Graves and Ritzau. YMS 28, during the advanced landings on the Anzio-Nettuni Area, Italy, in January, 1944. Executing hazardous minesweeping missions to clear approach channels for the passage of the assault boat waves of naval bombardment units, Cdr. (then Lt.) Lane made it possible for the assault waves to land tions resisting the establishment of the beachhead. During the ensuing follow-up operations, he directed Smith-Beaudette his ship in carrying additional sweeping tasks despite constant hostile air attack, shellfire in the shipping areas and adverse weather conditions, thereby enabling urgent maintenance requirements of our ground forces to be fulfilled by seaborne traffic arriving and dis-charging off the beachhead with minimum losses from enemy mining operations. His exceptional ability, seamanship and devotion to duty were in keeping with the highest traditions of the United State Naval Service.'

Lt. Fagerland, who has been re-leased to inactive duty, earned the award as a pilot in aerial flight operations against the enemy in the Pacific War Area.

Text of the full citation is as

"For meritorius achievement in aerial flight during operations against enemy Japanese forces in the Pacific War Area from May 28, to Sept. 15, 1944. Participating in numerous combat missions in the vicinity of opera-tional enemy airfields, Lt. Fagerland rendered skillful service and contributed materially to the success of our aerial forces in the area. His devotion to duty was in keeping with the highest traditions of the United States Naval Serv-

You've been working on the Runway

When a new baby arrives, the neighbors, doing what comes naturally, gather 'round and wish him well. Through childhood and adolescence, gifts are showered on him from poppa and momma and Aunt Minnie and Uncle Sam. But when baby reaches maturity, has an established business of his own with a yearly stipend rivaling the old man's and he still wants his momma and poppa and Uncle Sam to keep on buying him things and paying his taxes on his place of business, perhaps someone ought to gently suggest "It's time you paid your own way."

You and we, and all the other taxpayers are still supporting just this sort of "baby" - now a grown man. He is the commercial airlines - carrying passengers, mail and cargo in and out of New England and all over the rest of the country.

Over a billion dollars of taxpayers' money has already been spent on civil airports and in the next seven years it is planned to spend another billion dollars for these airports. Has any form of transportation an inherent right to live indefinitely on a public dole?

Right here in New England millions of dollars of taxpayers' money - yours and ours - have been spent to develop so-called "state" and "municipal" airports. These names are misnomers. "State" and "municipal" airports have been built and operated almost entirely as tax-free terminals for commercial airlines - operating for private profit. Small planes owned by individuals are graciously allowed to land and take off from these airports when, as, and if, the commercial airlines aren't using the runways at the moment. The government provides additional airports adequate for all military flying.

Meanwhile the railroads continue to maintain their own terminals, stations and tracks; provide and pay for their own traffic control, signal systems, etc. and in addition pay heavy taxes in every state and community through or in which they operate. As against this, the commercial airlines make only a token payment for use of these tax-free airports built and maintained by taxpayers. Uncle Sam provides their traffic controls and countrywide signal systems. They have succeeded, thus far at least, in having the taxpayers (including the railroads) foot the bills for improving and enlarging the airports where they do business. The snow-removal bill alone on some airports here in Northern New England often exceeds the rental paid by the airlines for using that airport.

We, like everyone else, want New England — and all the rest of our nation — to be progressive. The airplane is an established and growing factor in our transportation future. But, frankly, we of the railroads are a bit weary of seeing hundreds of millions of taxpayers' dollars - including a lot of ours being used to support commercial airlines and to pay a goodly part of their operating expenses, while railroads are compelled to pay all their own way and for all of the safe-operation devices including those ordered installed by the government.

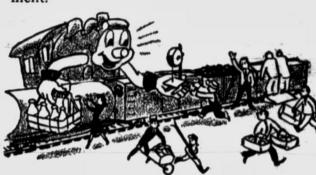

We find that a great many people do not know how much of their tax money has been, and still is being poured into airports for the principal benefit of commercial airlines - owned by private individ-

The Boston Globe says: - "On completion, the Logan International Airport will represent one of the state's greatest single investments - approximately \$50,000,000." And the state and city are still shoveling taxpayers' money into that airport in an extensive enlargement project.

The story is the same throughout the nation. Here in New England, in Bangor. Portland, Lewiston-Auburn and Augusta in Maine; Manchester and Concord, New Hampshire; Montpelier-Barre and Burlington, Vt. and in scores of other communities, city, state and federal tax money has been lavished on airports. And, the taxpayers are now being asked to spend a lot more for maintenance and expansion of existing airports and construction of new ones.

This means millions of dollars of your money and ours to be spent at a time when states, cities and lowns are desperately seeking new ways to raise money to pay school teachers and other municipal employees whose services are enjoyed by all the tax-

We are not seeking, nor do we want, any handout from the taxpayers. And, don't let anyone sell you that old red-herring about "land grants the railroads received in their infancy." Neither the Boston and Maine, nor any other New England railroad, ever received any land grants from the government. The land grants given Western railroads were in the form of a business arrangement and those railroads have more than repaid the government by carrying governmental shipments for almost 100 years at approximately one-half the rate charged private industry. In fact, the 79th Congress recognized that the railroads have repaid their debt over and over again and finally repealed this arrangement effective October 1, 1946. Bear in mind, please, that the airlines do not give any reduced rates to the govern-

The Boston and Maine, and every other railroad, welcomes FAIR competition. But we are tired of airline operators boasting of reducing their fares and providing free meals and other frills for their passengers but not bothering to explain to the public why they can do this. We believe you should know that they can do this only because financial help from federal, state and city treasuries - your tax money, and ours - lowers their costs of operation.

It is on railroad transportation that we all depend for fuel, foodstuffs and the other necessities of life. It is the railroads which provide millions of us with economical, dependable transportation no matter what the weather. It is the railroads which are (more often than not) the largest taxpayers in the community. It is the railroads which provide large payrolls, such as \$2,000,000 per year in Concord, N. H. and \$4,700,000 per year in Portland, Maine and vicinity. The present policy of subsidizing airlines tends to weaken the railroads and is harmful to our country's economic structure. The war proved beyond all doubt that weakening the railroads is most dangerous to our national safety.

Investigate now how much of the taxpayers money has been and is being used in your community to support privately owned commercial airlines. Ask how much more your community plans to shovel into subsidies for airlines. Maybe you, too, are as tired as we of "working on the runway."
